Plug the scantool into Car OBDII. Those are the common kind of entrances to the museums. Actually, in certain exhibitions, the entry can be a more complex series of fountains (and sculptures) which form and destroy parts of the room, such as in the Lightbulb and Cuckoo Clock by Martha Wilson and The Dot Project by Oscar Zangwill: Video summary: We had a nice dinner at Restaurant Mistral after seeing the exhibition. They are located in the Palmer House Hilton, the hotel our hosts are staying at. Thanks to my host, Pekka! bar is selected. A lot of examples like this are solved with an implementation of the UITabBarControllerDelegate method, but this is not working for me. Here is my implementation of the delegate method: override func tabBarController(\_ tabBarController: UITabBarController, didSelect viewController: UIViewController) { print("-----") print(viewController.tabBarItem.title) print("-----") }
