An excerpt from the article: The eye camera uses the same chip as the PlayStation 3 Eye, the same chip that is found in the PlayStation 3 Eye camera. The eye camera's SDK is linked to the PlayStation 3 Eye SDK. The eye camera has a built-in library that allows you to easily perform basic tasks like capturing an image or taking a screenshot. The SDK also includes a web browser control to easily upload images. The eye camera's SDK is free. The eye camera SDK is released under the GNU General Public License, version 3. According to the developers, the eye camera only captures a 640x480 image. The SDK is available for Microsoft Windows 7 and later.
