planisphere

Description: The  
purpose of the  
planisphere is to

---

explore the night sky.

The planisphere is a software application that will help you find the constellations and the names of the stars.

The planisphere is a pre-programmed application to use

---

while searching the sky and viewing those constellations. The planisphere is a This is a simple planisphere. If you can find the missing star, it will be yours. You can use it to teach yourself how

---

to identify the  
constellations. This is  
a very simple but  
clean starry  
planisphere with  
interesting star clues.  
You can use this  
planisphere as a daily  
Star Clock for

---

learning the stars. Are you a lover of the stars? Do you have any stars to share with the The "planisphere lite" is a free software application. The 1D zoom planisphere shows the

---

constellations. The first version of the program included 41 constellations.

Planisphere lite 1D

Zoom lets you use your planisphere like a little star clock. You can use the display to

---

get an impression of  
the time of day. You  
can use the display to  
mark the night sky

---

## Planisphere

The planisphere application was built using Java and eclipse. On this app you can find a large constellation map. The program is designed

---

for the use with the  
JNI application  
display module. The  
program was designed  
for the use with the  
following telescopes:  
Dobsonian, Meade  
LX300, Meade LX10,  
Meade LX200,

---

Newtonian, Celestron  
NexStar, Orion  
StarBlast, Orion  
StarPointer, Orion  
StarPointer3, Orion  
StarPointer, Orion  
SkyQuest, Orion  
SkyQuest XT, and  
others. With the help

---

of the JNI application display module, the full function of an application is available to the user. The program works well with the following optical devices: The Astro-Physics Projects

---

Astro-Physics

AstroMaster and

AstroMaster3, the

AstroMaster 2,

AstroMaster 6, and

AstroMaster 7.

planisphere -

Eloquence release date

- first version 6 - 20

---

December 2009. The planisphere software works in Windows, Linux, and Mac OS X operating systems and is compatible with most Internet browsers. The application can be

---

used offline. To  
download the  
application for your  
device, just click on  
this link : [planisphere -  
Eloquence](#) You can  
also obtain news and  
information about the  
application by

Field of the Invention

The present invention

relates to a portable

terminal. More

particularly, the

present invention

relates to an apparatus

---

and a method for performing an automatic speech recognition (ASR) function of a portable terminal. 2.

Description of the Related Art Portable terminals such as

---

cellular phones may include an automatic speech recognition (ASR) function, which is to recognize the user's speech commands. When the user inputs a speech command, the ASR

---

function recognizes the speech command and controls the portable terminal according to the command. In general, the ASR function employs a complex computationally-

---

intensive algorithm to accurately recognize the user's speech command, and the ASR function is initiated after the user inputs a series of predetermined characters, such as

---

SHIFT, SEND, OK  
and END. To  
recognize the above-  
noted series of  
predetermined  
characters, the  
portable terminal  
usually includes a  
speech control unit for

---

recognizing the input speech commands. In this instance, the speech control unit includes a plurality of pattern matching units and at least one character generator for recognizing input

---

speech commands.  
The speech control  
unit compares the  
input speech  
command with the a  
plurality of reference  
patterns registered in  
advance, and  
determines whether

---

# the comparison

## What's New In Planisphere?

The application is designed to help the user explore the night sky and find its constellations.

planisphere Features:

---

It has the ability to: -  
Display the  
constellations that can  
be seen on any given  
day. - Identify all the  
constellations. - Know  
the number of stars in  
a constellation. -  
Know the height of

---

each constellation  
above the horizon. -  
Know the center of  
each constellation. -  
Know the rotation of  
each constellation. -  
Know the date and  
time. - The application  
is user friendly. - The

---

users should be able to locate any constellation on any given date. - The users should be able to compare the night sky to any given date. - The application is economical as it uses

---

less bandwidth than  
other websites.

planisphere

Application: The users  
should be able to  
navigate on the map to  
view the night sky and  
locate the  
constellations.

---

planisphere in the Lab:  
The planisphere is the product of a research project in which the author focuses on the use of ground-based telescopes for the exploration of the night sky. The project

---

has two prongs: the development of the software and the determination of constellations and their corresponding stars. One of the main goals of the project was to develop a

---

prototype that would help the users of the program locate constellations and constellations faster than using traditional methods. planisphere is launched through an APK file. planisphere

---

Description: The planisphere software was built using the Java programming language and can run on multiple platforms.

planisphere Features:  
It has the ability to: -
