In order to reduce the excessive fluoride intake, the drinking water is often processed with various combinations of ion exchange resins and ion-exchange carbon. However, the process is inefficient and energy consuming. There is therefore a need for a process whereby fluoride can be easily separated from aqueous solutions of fluoride. The above need is answered by this invention which deals with the separation of fluoride from aqueous solutions thereof. The process of the invention produces an eff

Apple announced Monday that Scully is leaving his post as chief executive of Apple Retail, effective immediately. Scully's departure coincides with the launch of Apple's new retail stores. The new stores are larger than the previous locations, and the employees at the stores are unionized. In a statement, Apple cited "key milestones" that Scully would have accomplished during his three-year tenure. Those include hiring 3,000 people, reaching $5 billion in annual sales and returning $27 billion in uncollected cash to shareholders. "We thank John for his contributions to Apple Retail and wish him all the best in his future endeavors," Cook wrote in the statement. Scully has been working with Apple for more than 30 years, including 14 years as CEO of Apple's European operations. He led Apple's effort to open new stores and did research on ways to

make the retail experience more inviting for customers. He won several awards for his work, including the Oscar for Best International Animated Short Film in 2001. Analysts said Scully's exit was the result of major new initiatives, particularly the new store model. "Apple's big challenge was moving away from having three distinct product lines, which is a sales and distribution risk, to unified product lines," Mark Moerdler, an analyst at Susquehanna Financial Group, said. "John Scully was instrumental in helping Apple execute on that
