version of the company's products which is available to students and students. Autodesk 360 provides free CAD software to students, no login, no downloads, no software registration. It is integrated with the Autodesk Marketplace, which contains thousands of free CAD software plugins. Students can access online tutorials, ask questions, get support, and connect with other students. In October 2011, Autodesk announced that Autodesk Architectural Desktop, a free 3D architectural model, was being integrated into Autodesk 360, allowing architects to create and share 3D models of projects. Autodesk Architectural Desktop Autodesk Architectural Desktop (ADT) is Autodesk's free software product. It is based on the open source RAD Studio technology, and is used to create architectural designs in 3D. ADT has three main components: The ADT Authoring Toolkit, or ADTAT, is a C++ component that provides tools for creating and editing drawings. It is based on the Autodesk SDK. ADT is a 2D design program that supports vector, auto, and block graphics. ADT

Architecture Studio is a 3D design program. Its 2D components are based on the Autodesk SDK. ADT was released on March 24, 2008. Autodesk AECOM Technology has updated the ADT Architecture Studio to the latest version 4.1.6 which was released on November 25, 2014.

Autodesk 360 can be accessed by any internet-connected device, including computers, tablets, and smartphones. Autodesk Architecture In April 2009, Autodesk released Autodesk Architecture, a new program from Autodesk to compete with Bentley Architecture's ArchiCAD. The program costs US\$149.95. It is similar to Autodesk 360 Architectural Desktop, but is intended for architects and designers to create parametric architectural designs. Autodesk Architecture can be used to design any kind of building, including office buildings, houses, and furniture. Autodesk
