This is a straightforward piece of software designed to help you quickly prepare video files and subtitles for playback on iPhone devices. It offers support for several audio and video formats, such as.mkv,.asf,.divx,.xvid,.flv and.mp3, along with.smi,.srt,.sub,.txt and.mpl2 subtitles. Portability perks Since there is no setup pack involved, you can drop the executable file in any

part of the hard disk and just click it to launch the app. Another option is to keep it stored on a USB flash drive to be able to swiftly convert videos from any computer you access. It doesn't modify Windows registry settings. Intuitive interface and options The interface is based on a window that resembles the display of iPhone 4, which lets you select the audio, video and subtitle files you want to mux and convert. It's possible to preview clips in an

embedded media player, pause and stop the stream, as well as check out the current play position and total time. Plus, you can select the quality between low and high, and proceed with the conversion operation with one click. Apart from the fact that you can pause the task to temporarily allocate system resources to other applications, there are no other notable options provided by this piece of software. Downsides and conclusion Unfortunately,

ALLConverter to iPhone doesn't provide batch processing support, audio, video and subtitle customization, nor the possibility to modify the destination directory. In fact, it failed in several attempts during our tests to convert clips, although it didn't indicate any errors. We must also take into account that it hasn't been updated for a long time. Perhaps you should look for a more reliable video converter for iPhone devices. Older Reviews (over 2 years

old) There are no older user reviews for ALLConverter to iPhone.Renaissance-era decorative arts that have been lost to time can now be seen up close thanks to a special exhibit opened for the first time at the New York Historical Society. The exhibit, opening this month, is as unusual as it is inventive: it consists of three centuries of jewels by the Italian Alhambra dei Medici family, whose hand-built palaces are found across 14 cities and counting. Tucked in

an early 20th-century house in Soho, the display has been fashioned to embody the style, colors and 09e8f5149f

Portable conversion tool for ANY video file. THIS tool has no installation pack/package. The tool will not conflict with any window. Will work on windows 32bit and 64bit. It will work on both 32bit and 64bit systems. The package size is about 50 MB. The app will not add to registry registry.]{ }, arXiv:0912.2054 \[hep-ph\].
