Windows (Full Pack);.Q: How do I output a variable with a unique id in ASP.NET MVC?

I'm new to ASP.NET MVC and I want to display a given variable in my view. I created an entity called Job as follows: [Table("Job")]  
public class Job { [Key] public int Id { get; set; } public string FirstName { get; set; } public string LastName { get; set; } public string Address { get; set; } } The database generates a unique id for every new entry, so I have one class with the Id as the key. I want to be able to display the value of Id in my view. This is what I have so far: @model IEnumerable @ { ViewBag.Title = "Index"; }  
Index @using (Html.BeginForm()) {  
@Html.AntiForgeryToken() d0c515b9f4
